

500 EAST 26TH STREET
TUCSON, ARIZONA 85713
(520) 628-1951

PREPARATION FOR FUMIGATION

- A) Remove from the structure to be fumigated all persons, domestic animals, pets, including fish, and all desirable growing plants.
- B) Mattresses completely enveloped in waterproof covers (or remove covers).
- C) Food and medicinal not sealed in glass or metal containers must be either removed from the building or placed in 4 mil plastic bags or greater thickness and sealed with masking tape or clamps. this includes food in refrigerators and frost free freezers.

NOTE: Your fumigator is trained in the correct procedure to avoid any handling or application hazards. Please follow his instructions.

To avoid misunderstanding, our insurance company requests that all valuables such as jewelry, large amounts of cash, and objects of art be removed prior to fumigation.

As a safety precaution, the fumigators must have access to all parts of the structure. This includes storerooms, closets, etc., which are normally kept locked.

Fumigation operations cannot commence during inclement weather such as rain or strong winds. Fumigations scheduled for days of inclement weather must be postponed until a later date.

After fumigation, dishes and cooking utensils may be used without prior washing. Vikane gas does not affect finishes, paints, fabrics, or any similar items.

Date of fumigation: _____ Time: _____

Be prepared to vacate by: _____ Time: _____

Date you may reoccupy: _____ Do not enter until after: _____ o'clock

Please make arrangements for keys if you will not be available at the time the fumigation crew arrives.

Thank you.
